SUMMARY

Frontend Developer with hands-on experience building responsive, conversion-focused websites using HTML, CSS, and Bootstrap. Experienced in translating designs into clean, functional interfaces and collaborating using Git & GitHub. Focused on building fast, mobile-first web experiences for real users.

WORK EXPERIENCE

Frontend Developer Intern   AXIA HUB | Jos, Plateau State   June 2025 - Sept 2025
- Built responsive websites for a car selling platform and food recipe blog using HTML, CSS, and Bootstrap.
- Implemented mobile-first layouts and ensured cross-browser compatibility.
- Delivered complete frontends independently from structure to final UI.

PROJECTS

Car Website Landing Page

- Designed a visually focused landing page to showcase a luxury vehicle.
- Emphasized strong visuals, clean layout, and responsive design.
- Resulted in a fast, modern, and engaging browsing experience across devices.

Ifeco Phone Store Business Landing Page
- Built a mobile-friendly landing page for a phone retail business.
- Improved user engagement and accessibility on all screen sizes.

Advice Generator App Web App

- Focused on speed, simplicity, and clean UI feedback.
- Delivered a responsive and engaging user experience.
- Built an interactive JavaScript application using API integration.

SKILLS

- HTML5 Semantic, accessible, SEO-friendly markup
- CSS3 Responsive layouts, Flexbox, Grid, modern UI styling
- Bootstrap Mobile-first design, grid system, UI components
- JavaScript DOM manipulation, basic interactivity, API usage
- React Native Mobile app development
- Git & GitHub Version control, collaboration, project management

EDUCATION

B.Sc. Computer Science   Sep 2023 - Oct 2027

Veritas University | Jos, Plateau State

- Focused on foundational computer science concepts and practical software development.
